01 / THE EXPERIENCE

A COMPLETE EVENT. NOT JUST EIGHT MACHINES.

The organizer should be able to participate. The Grid team manages the briefing, simulator fitting, practice, qualifying, race rotations, timing, results and podium so the room keeps moving from arrival to finish.

01 ARRIVE AND BRIEF Welcome, simulator fitting, controls and a clear explanation of the competition.	02 PRACTICE Every driver learns the track with coaching and individually adjusted assists.	03 QUALIFY Timed qualifying seeds the field while the room follows live results.
04 RACE THE HEATS Structured rotations keep larger groups moving across all eight simulators.	05 CHAMPIONSHIP FINAL The fastest drivers advance to a decisive final race.	06 RESULTS AND PODIUM Official results, awards and group photos close the event.

INVENTORY	Eight simulator rigs at opening, with structured rotations for 8 to 24 active racers.
EXPERIENCE	No previous simulator racing experience is required. Driving assists can be adjusted by participant.
LOCATION	6000 S Eastern Ave, Suite 8C, Las Vegas, NV 89119 - east of the Strip resort corridor.
